SECTION 2		RESPONSES	
After four years, what will your office have accomplished to improve life in Kentucky?		"Refer to www.mattbevin.com for a comprehensive list of accomplishments. In short, our record-breaking economic development and job creation results speak for themselves. Our commitment to life and to foster children is unprecedented. Voters can expect this plus more going forward."	"We'll prove that grassroots candidates can get the job done by shrinking the size of government in Frankfort. We'll begin with automating the Treasurer's office. We'll preserve Kentuckians' best interests by preventing passage of special interests' legislation."
What strengths does your running mate possess that make him the best choice for Governor?		"Christian and family values he demonstrates in living his faith while raising nine children. The heart he has shown for the unborn and the orphan. His military service and devotion to veterans. His expertise in the financial sector."	"He has been a teacher. He worked for several years in IT and he's owned a newspaper. Also being a war veteran gives him a more full appreciation for life."
Why do you believe your running mate is a better choice for Governor than his opponents?		"See responses above. Those in the other party would return Kentucky to the old, failed policies of the past 40 years."	"Unlike the other candidates, he doesn't want a career in politics; he doesn't want to tell people how to live their lives. He simply wants to reduce the government footprint on Kentuckians' lives. And he understands that taxation is theft."
What would your top three priorities be if elected as Lieutenant Governor?		"A. Assist the Governor to give Kentuckians health choices and better health outcomes. B. As a physician I am very passionate about protecting the most innocent among us. C. Continue to reduce the size of government and Red Tape."	"My top priority is transparency; to shine a light on wasteful and inefficient government services, programs and cabinets facilitating a reduction in useless statutes. And I want to know why Kentucky has one of the highest incarceration rates of women."

What are your recommendations for trimming the budget and cutting government waste?

Candidate chose not to participate.

“See our Red Tape Reduction initiative. Used as a model by President Trump when he began a similar effort. The Kentucky program will be an ongoing effort. Our Medicaid waiver will save Kentucky tax payers millions.”

“There shouldn’t be special legislative sessions for passing a budget. It’s their primary job. Elected officials shouldn’t get pensions. Kentucky’s Treasurer is the ‘weakest’ of all remaining state treasurers and we can effectively eliminate that office. Cut spending.”

If elected, what do you see as the most important issue you will face in the next four years?

“Solving the public pension crisis in Kentucky. This effort will be led by the Governor but I will advise and assist him.”

“Reducing the size and cost of government. Small businesses should thrive; workers should keep more of their paychecks. Balancing the budget is imperative and also a moral obligation for the state legislature and the governor’s office. Eliminate the debt.”

What strengths do you possess that make you the best candidate for this office?

“In addition to my own career the life-lessons I learned from my parents have shaped me. My parents were legal immigrants to this country who were incredibly proud of their heritage but equally proud of the privilege to be Americans.”

“I’m a mom. Fear doesn’t guide me. My 25 years of practical experience at Toyota. My belief in the pioneering spirit of Kentuckians; knowing that they are not as divided as their government in Frankfort. I know taxation is theft.”

Why would you be more effective in this office than your opponent(s)?

“All the attributes described in this survey and many that I have not listed here define me as a conservative and as a Christian. Our opponents do not share our conservative values.”

“I have no political ambitions, therefore I am not beholden to the polarized establishments of the two other parties. Nor will I sacrifice Kentuckians and their hard earned money to special interests. I believe the individual is the smallest minority.”

In what ways would you be an improvement on your predecessors in this office?

“Jenean Hampton is a friend and was a wonderful Lieutenant Governor. I shall give my all to live up to her legacy in this office.”

“I refuse to accept any state pension. I will urge Kentuckians to discontinue pensions for their elected officials. Politics should not be a career and politicians shouldn’t be a lifelong burden on taxpayers.”

To know you more personally, what issue(s), unrelated to the office you seek, are you passionate about?

“I serve on the President’s Hispanic Advisory Council. I am passionate about teaching my children their Hispanic heritage while at the same time, showing them how important it is to mesh that with a love of America and being American.”

“My ‘One Thing’ is my family. My family is my motivation for everything important. Sidney’s band will be big for the next few years. But even in the big scheme, it’s why I’m pro-peace. It’s for my children.”
